

MIKAEL TAPANI SOTTI

Practical nurse, Software developer student

INTRODUCTION

I am 28 years old information and communication technology student from Oulu. My previous profession is practical nurse, with experience with work in child care and working with people with disabilities. I am always thoughtful of others, polite, considerate, and treat people with respect and an open mind. My strengths are my skill in English, technology and creativity. I have studied mainly web development in school (JavaScript, php, mysql...), in my freetime I have learned python programming skills.

WORK EXPERIENCE

- 2022 **Special care assistant in early childhood education and care**
City of Oulu, Mäntylä-Snellman daycare centre
I helped a child as their assistant in daily actions such as cleanliness, getting dressed and moving around.
- 2021 **Childcarer in early childhood education and care**
City of Oulu, Mäntylä-Snellman daycare centre
I worked as a childcarer in early childhood education, in a sami-language group among other things. Mainly I focused on the basic care duties of the work.
